“Experience **Trust** **Quality**”

ABOUT US

As Cimak Gear, we lead the sector with our long years of experience in the field of gear and power transmission systems. Although our company has been operating under the name Cimak Dişli since 2005, our roots date back to the 1980s.

Since the 1980s, our founding team has gained significant knowledge and experience in the sector by operating in the field of gear production, machine manufacturing and industrial power transmission solutions. Today, this experience forms the basis of Cimak Gear's innovative production approach and quality-oriented approach.

Our company, which produces transmission gears, differential gears and axle system gears for construction machinery, trucks, tractors and passenger cars, is also a reliable solution partner in the defense industry. Thanks to our wide product range and high production capacity, we meet the demands in the sector in the fastest and highest quality way.

Unlike our competitors, we successfully manage the most sensitive production processes with our constantly renewed technological infrastructure and strong engineering staff. Our superior quality standards and the importance we attach to customer satisfaction have made us a leading and preferred brand in the sector.

With durability, precision and quality at our center, we produce gears that offer uninterrupted performance and add value to the industry.

“Heart Of The Movement”

CİMAK GEAR?

As Cimak Gear, we prioritize quality, precision and durability in industrial gear manufacturing. Thanks to our experience in the industry and our high-tech production processes, we offer the most reliable gear solutions for your machinery and automation systems.

Durability and Precision Our products are long-lasting and highly resistant to wear. Gears produced with precision machining technology provide maximum performance.

Customized Production Solutions In addition to standard gears, we develop custom sizes and designs for your business. We increase your productivity with customized solutions.

Technology and Innovation We make high precision production with CNC machines and advanced engineering techniques. We make a difference in the sector with innovative solutions that we constantly develop.

On-Time Delivery Thanks to our strong supply chain, we deliver your orders at the time you planned, complete and reliable.

Trust and Customer Satisfaction We offer the best service to our customers by prioritizing quality with our years of experience.

By choosing Cimak Gear, you can move your business forward with powerful, precise and reliable gear solutions!
